PROFESSIONAL SUMMARY

Data & Business Intelligence Analyst with hands-on experience in SQL, Python, Power BI, and Power Query, building ETL pipelines, automated reports, and interactive dashboards for operational decision-making. Experienced in analyzing 50,000+ records across 24,000+ retailers, monitoring KPIs for 159 field officers across 17 regional units, and reducing recurring reporting turnaround time by ~75% through automation. Skilled at collaborating with cross-functional stakeholders to translate operational and sales data into actionable, data-backed recommendations.

PROFESSIONAL EXPERIENCE

RS Operations Executive | Banglalink Digital Communications Ltd. (via Interspeed Marketing Solutions Ltd.)

09/2025 – Present | Khulna, Bangladesh

- Extract, clean, validate, and consolidate 50,000+ multi-source records covering 24,469 retailers, building and maintaining 40+ Power Query ETL transformations for automated reporting.
- Develop daily, hourly, weekly, and monthly MIS reports and dashboards, delivering 4–5 time-sensitive updates per hour to support operational decision-making.
- Built Python-based automation workflows for recurring management reporting, reducing turnaround time by approximately 75%.
- Monitor KPIs for 159 Retail Sales Officers (RSOs) across 17 regional Distribution Houses, analyzing target vs. achievement data to identify performance gaps and operational trends.
- Serve as Regional POC, coordinating with cross-functional stakeholders to resolve data and operational issues and support process improvement initiatives.
- Prepare recurring reports and documentation on sales, distribution, and operational performance for management and field teams.

KEY PROJECTS

[NEXUS — Retail Intelligence & Business Analytics \(Power BI, Power Query, DAX\)](#)

- Multi-page retail BI dashboard analyzing executive performance, sales intelligence, customer segmentation, retention, and churn.

[Customer Churn & Retention Analytics \(Python, SQL, Power BI, Pandas\)](#)

- Analyzed churn patterns and high-risk customer segments through Python EDA, SQL analysis, and Power BI visualization to surface revenue-at-risk insights.

[Pickaboo Business Intelligence Dashboard \(PostgreSQL, Power Query, Power BI, DAX\)](#)

- End-to-end BI solution analyzing sales performance, revenue trends, customers, products, and order status.

[GA Performance & Operational Analytics Dashboard \(Power BI, Power Query, DAX\)](#)

- Automated dashboard tracking distributor-wise target achievement, KPI performance, and operational trends across 17 Distribution Houses.

TECHNICAL SKILLS

Data Analytics & BI: SQL, Python, Power BI, Tableau (Basic), Power Query, Advanced Excel, ETL, Data Validation, KPI Analysis, Dashboard Development

Databases: PostgreSQL, MySQL, SQLite, Joins, CTEs, Subqueries, Window Functions, Aggregations

Business & Reporting: MIS Reporting, Operational Analytics, Business Requirements & Documentation, Stakeholder Coordination, Process Improvement

EDUCATION

Bachelor of Science (B.Sc.) in Electrical & Electronic Engineering (EEE) — University of Asia Pacific (UAP), Dhaka, Bangladesh
