PROFESSIONAL SUMMARY

Data & Business Intelligence Analyst with **1+ year of experience in Management Information Systems (MIS**), sales and distribution analytics, KPI monitoring, data validation, and reporting automation in the **telecommunications industry**. Hands-on experience in Advanced Excel, Power Query, Power BI, SQL, and Python for data extraction, cleaning, transformation, reconciliation, dashboard development, and recurring report automation. Experienced in analyzing sales performance, target achievement, distributor productivity, field-force KPIs, and commission data. Managed 50,000+ multi-source records covering 24,469 retailers, 159 Retail Sales Officers, and 17 Distribution Houses. Improved reporting efficiency by reducing recurring report turnaround time by approximately 75% through Python-based automation and Power Query transformations.

CORE COMPETENCIES

MIS Reporting and Dashboard Development | Daily, Weekly, and Monthly Reporting | KPI Monitoring and Performance Analysis | Sales and Distribution Analytics | Target vs. Achievement Analysis | Data Extraction, Cleaning, and Validation | Data Reconciliation | Power Query ETL and Reporting Automation | Power BI Dashboards and DAX | SQL-Based Data Analysis | Python Reporting Automation | Commission Reporting | Process Improvement | Cross-Functional Coordination

TECHNICAL SKILLS

Microsoft Excel & Power Query: Advanced Excel, Pivot Tables, XLOOKUP, VLOOKUP, SUMIFS, COUNTIFS, data cleaning, data transformation, data consolidation, ETL workflows, recurring report automation

Business Intelligence & Visualization: Power BI, DAX, KPI dashboards, performance reporting, data visualization, trend analysis, target vs. achievement reporting

SQL & Databases: SQL, PostgreSQL, MySQL, SQLite, joins, CTEs, subqueries, window functions, data extraction, data analysis

Python & Analytics: Python, Pandas, NumPy, Jupyter Notebook, data cleaning, data processing, ETL, reporting automation

Tools & Systems: DMS data processes, VS Code, Git, GitHub

PROFESSIONAL EXPERIENCE

RS Operations Executive – MIS & Business Analytics **Sep 2025 – Present**

Banglalink Digital Communications Ltd. (via Interspeed Marketing Solutions Ltd.) | Khulna, Bangladesh

- Prepare daily, hourly, weekly, and monthly Sales MIS reports and performance summaries to support management reporting and operational decision-making.
- Monitor and analyze sales KPIs, targets, achievement, productivity, and performance trends for **159 Retail Sales Officers** across **17 Distribution Houses**, highlighting performance gaps and operational issues.
- Extract, clean, validate, and consolidate **50,000+ records** from multiple data sources covering **24,469 retailers** for sales, distribution, and performance analysis.
- Develop target vs. achievement reports and distributor and field-force performance summaries for regional stakeholders.
- Build and maintain **40+ Power Query ETL transformations** to clean, standardize, consolidate, and validate data, improving the efficiency of recurring MIS reporting.
- Perform cross-source data validation and reconciliation to improve report consistency and accuracy across sales, distribution, and commission reporting.
- Process recurring commission files, calculate and allocate commission amounts for Retail Sales Officers, Distribution Houses, Business Partners, Regional Supervisors, and Managers, and prepare consolidated commission summaries for final validation and distribution.
- Develop Python-based reporting automation that reduced recurring report turnaround time by approximately **75%**, from around 15 minutes to 3–4 minutes.
- Serve as the regional point of contact for 17 Distribution Houses, coordinating with Zonal Managers, MDOs, TOs, managers, and distributors to resolve data discrepancies and ensure timely reporting.
- Support DMS-related data processes, including order visibility, employee ID issues, and SIM/Card synchronization.

SELECTED DATA ANALYTICS PROJECTS

NEXUS – Retail Intelligence and Business Analytics Power BI, Power Query, DAX

- Developed an end-to-end retail analytics solution covering sales performance, customer behavior, product performance, and business KPIs.

GA Performance and Operational Analytics Dashboard Power BI, Power Query, DAX

- Developed a dashboard to analyze performance across 17 Distribution Houses, including target achievement, SIM sales, RSO productivity, and regional performance.

Pickaboo BI Dashboard PostgreSQL, Excel, Power Query, Power BI, DAX

- Analyzed revenue trends, customer behavior, product performance, regional performance, payment methods, and order status using SQL and BI dashboard visualizations.

Customer Churn and Retention Analytics Python, SQL, Pandas, Power BI

- Analyzed customer behavior and explored high-risk customer segments and revenue-at-risk patterns to support retention-focused decision-making.

EDUCATION

Bachelor of Science in Electrical and Electronic Engineering (B.Sc. in EEE)

University of Asia Pacific (UAP)
